

# NECCA YOUTH CLASSES

Kids are growing fast and so is our youth programming! We are excited to announce updated and revised classes just for our younger circus enthusiasts to offer more ways to try something new or focus on what they love!

- We've created clearer age groups to make sure each student has peers and friends to work with.
- We're offering teen and young adult specific classes so these students can keep the pace they want and have an environment specific to them.
- We are specializing more, offering ground-specific and air-specific options.
- We've designed more levels so there's always a way to be challenged to greater heights!

NECCA's youth are growing stronger, flying higher, and learning more every day. With more classes to try, we can't wait to see what amazing things they'll accomplish next!

## TOTS → PRESCHOOL → KIDS CLASSES
